Createspace Independent Publishing Platform, United States, 2013. Paperback. Book Condition: New. 230 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Oxygen is crucial for normal health. Nearly all chronic diseases are either based on or always accompanied by tissue hypoxia (low levels of oxygen in body cells) and poor results for the body oxygen test. A person can eat tons of supplements, drink canisters of super juices, practice yoga for many hours every day and do many other useful or encouraged things, but, if his or her body O2 levels remain unchanged, the health of this person will likely remain unchanged too. Frolov device effects: For an average sick person, breathing exercises with the Frolov device or Breathslim (a similar device) are the fastest and easiest method to increase body oxygenation. These exercises do not require a breathing teacher or practitioner. These are the reasons why the Frolov device or Breathslim is so effective for various health problems and people who have low body O2 content (Butyeko CP test). During the first decade of this century, over 2,000,000 Frolov devices were sold in Russia. This is the statistic of Russian company Dinamika, the main producer of Frolov devices. Since the Frolov device is a medical device (approved by FDA as well), Russians can buy Frolov devices in pharmacies. Over 500 Russian doctors endorse and encourage the use of the Frolov breathing device to their patients in order to normalize body oxygenation and other vital body characteristics. Clinical studies proved that breathing exercises with the Frolov device lead to improvements in key health parameters for people with numerous health problems ranging from heart disease and diabetes to asthma and COPD. While Dinamika provides instructions in English and other foreign languages (together with a DVD) for people...
