

Ethics for Nursing and Healthcare Practice

Filesize: 3.51 MB

Reviews

Basically no words and phrases to describe. It is really simplified but unexpected situations in the fifty percent of your book. I am delighted to let you know that here is the very best publication i have got go through within my very own lifestyle and might be he greatest publication for actually.

ETHICS FOR NURSING AND HEALTHCARE PRACTICE

DOWNLOAD

SAGE Publications Ltd. Paperback. Book Condition: new. BRAND NEW, Ethics for Nursing and Healthcare Practice, Kath M. Melia, Everyday clinical practice is steeped in ethical considerations, but discussion of ethics is often removed from these real-life situations. Kath M Melia's new book works in the gap between theory and practice. The chapters tackle the main theories which form the discussion on ethics, and include practical case examples, which bring these theories into the clinical context. These classic and everyday cases challenge the reader to critically reflect on his/her own experiences and outlook. The social, legal and professional regulation context is brought into the discussion throughout, to equip students with the knowledge that they need to make clinical decisions. Topics covered include: - Beauchamp and Childress' four principles of bioethics - Rights - Personal and individual conscience - Moral philosophy - The virtues/virtue ethics of the practitioner. This book will be essential reading for pre-registration nursing students taking modules in ethics and law. It will also be a valuable text for postgraduates and qualified nurses, and students of health who need to gain an appreciation of ethics.
