The patriotic citizen of today points with pride to the men and events that helped to give independence to our nation. His heart thrills at the mention of Concord and Yorktown. He feels profoundly grateful to the heroes of the time of the American Revolution, regardless of whether they be soldiers or statesmen, and justly so for we owe to them a debt of gratitude that can never be repaid. But while it is true that we should hold in sacred memory the names of the brave men who helped to transform the thirteen English colonies into thirteen free and independent states, it is equally true that we should not forget these other brave men who continued the work so nobly begun. The heroes of the Revolution made us a nation, but it was the work of men no less heroes to extend the boundaries of that nation until from a narrow strip of land along the Atlantic seaboard, it had come to reach from sea to sea and to include lands and islands which the patriots of 75 did not even know to exist. To tell something of this great movement, to sketch briefly the inside history of the various land cessions is the purpose of this little volume. The original basis of this work was a series of papers prepared by the author in a course in Territorial Expansion of the United States, taken at Oklahoma University in 1911 under Professor J. S. Buchanan, Head of the Department of History and Dean...
