A more recent perusal of Grant s History of the Burgh Schools of Scotland led me to collect what information I could obtain regarding the rise and progress of Education in Scotland, and throw it in book form for the benefit of those interested in such matters. The book aims at giving a short sketch of the History of Education in Scotland before the Reformation, but concerns itself more particularly with the foundation and growth of the old Parish School system initiated by the commanding genius and foresight of John Knox. There is to be found in the old Acts of the Scottish Parliament and of the General Assembly, and in Presbytery and Kirk Session Records, a considerable amount of information bearing on Education, which as yet has never been brought to light. But so far as I am aware, no writer has collected these references and combined them into a systematic and continuous history of the establishment and progress of the old Parish Schools of our land. In this book it is my endeavour to do this in a brief and popular form. To undertake, however, such a task in anything like a complete form would, I readily confess, demand a lifetime, and very laborious research in many departments of old history.
